

# RLE Technologies

## Keypad Interface (KPx)

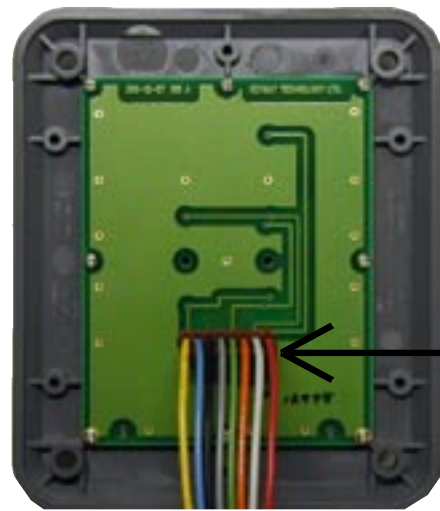

The RLE KPx adds an extra element of security for Falcon users. The KPx connects to the Falcons “keypad access” (TB5) to limit access only to authorized personnel using individual identification codes.

### Installation

Each KPx comes with a color coded wiring harness. Pin 1 is the far right pin as you look at the back of the KPx. The table below diagrams the interface between the KPx and the Falcon Monitoring System. (Indoor keypad shown below).

(Front)

(Back)

PIN 1

Keypad	Harness	Falcon
Pin #	Wire Color	Keypad Access
1	Red	TB5, PIN 4
2	White	TB5, PIN 5
3	Orange	TB5, PIN 1
4	Green	TB5, PIN 2
5	Grey	TB5, PIN 3
6	Black	TB5, PIN 8
7	Blue	TB5, PIN 7
8	Yellow	TB5, PIN 6
